

Blue Wave Results

We are two months out from the 2018 midterm elections. This can be pivotal in the success or failure of the Trump Administration. The Republican party needs to have sweeping victories across this great nation. The Red Wave needs to ride the Trump Train in full support.

This way the President can continue the agenda of Making America Great Again and moving forward over the next 2 to 4 years. And yes this includes a 2nd term for President Trump. But it does hinge on the these midterms.

A Blue Wave would be a disaster for the President and the American People. A Blue Wave of hate and intolerance would bring up the Impeachment of President Trump in the House. Not under any evidence but because the Left hates this President. And they would use that hate, spite, and power to Impeach him.

If the Blue Wave is successful in the Senate, we could see President Trump being removed from office. And the Left would not stop there. With full support of both houses of Congress, the Left would then Impeach and remove President Pence before he can even move into the White House.

The Left is so against the outcome of the 2016 elections. They would not stop until everything that President Trump has done is erased from history. With Trump and Pence out of the way, this means that the new Speaker of the House, in a Blue Wave, becomes President. This would be Nancy Pelosi.

Once the Left has the House, the Senate, and the White House. They systematically undo and reverse every promise made and kept by President Trump. Taxes would increase. Trade deals would be returned to their previous unbalanced nature. The economy would crash. Unemployment would rise, especially among the Black, Hispanic, and women demographics.

Religious freedoms would suffer, especially for Christianity. For the true followers of Christ and His message they would become one step closer to being forced underground in fear of being charged with "hate speech". And their enemies of Christianity, those groups that hate Christians and the Truth they tell the world would all be praised.

Our nation's sovereignty would be destroyed. The Left's Blue Wave, would flood the gates and allow every illegal alien citizenship without vetting. Without anything at all. Just the stroke of a pen. And all of these criminals would swell the ranks of the Democratic voting rolls. Ending any hope of restoring the Republic without force of arms.

Even the Justices to the Supreme Court appointed by President Trump would not be immune. They too would be Impeached and removed from office by the Blue Wave Democratic Left.

All because the Left still, 2 years since 2016, believe that Donald Trump stole the election from them and somehow cheated. They of course will also begin the process of changing the Constitution to rid it of the Electoral College.

This is unfortunately not fantasy. This is not a fictional narrative of some dystopian future of a dime store novel. This is truth. This will happen if the Blue Wave takes control of the House and Senate.
